S U M M A R Y

What started as curiosity about how games work turned into a genuine commitment to building them. I've taught myself Godot and Unity, picked up Blender for 3D modelling, and applied those skills in real projects — including a fully playable arcade game shipped with a team. My academic record reflects the same work ethic I bring to everything I build. Motivated, hands-on, and serious about growing into a capable game developer.

Markers Run — 2D Arcade Adventure

Oct 2024

Godot Engine · GDScript · Team of 3

- Built a complete 2D arcade game — handling level design, player mechanics, and game flow.
- Integrated physics-based mechanics and shipped a playable prototype within one month.
- Collaborated across a 3-member team, coordinating design and implementation in parallel.

E X P E R I E N C E

Freelance 3D Modeller

2023 – Present

- Delivered 3D assets for clients in Blender — modelling, UV unwrapping, texturing, and rendering.

Hackathon Participant

2024

- Built software and game prototypes under tight time constraints across multiple hackathons.

A C H I E V E M E N T S

- Rank 1 — Inter-School 3D Modelling Competition (Sept 2022)
- Rank 5 — Euphoria Lucknow (2022)
